COMPLETE ACCESS CONTROL IN A DOOR LOCK!

A Mortise lock with deadbolt and audit trail! 1Touch XL lock is a lock you have asked for and now we have brought it to market. With its unique design, robust features, and unsurpassed quality it will quickly become the chosen name for access control for home and business use alike. After having sold 1,000's of our smaller version, the 1Touch, we can testify to the fact that it is the best quality fingerprint lock available on the market today. Stylish and easy to use, this fingerprint door lock offers a sliding front cover that not only allows protection for the optical sensor against the outdoor elements but also activates (wakes up) the fingerprint scanner when lifted. The 1Touch XL will accommodate up to 99 fingerprint users in the following groups: Administrators, Users, and Guests. This gives you the ability to auto expire a guest user such as contractor or house guest on a certain date and time of your choice.

The 1Touch XL Fingerprint lock gives you the freedom to not worry about lost, stolen, or forgotten keys ever again. Now you can use your fingerprint to effortlessly identify that you are indeed the rightful, authorized person you claim to be! Simply place your finger on the next generation scanner and the door unlocks instantly! Using the 1Touch XL Lock's 12 buttons, fingerprint and pin users may be enrolled and deleted - individually. The 1Touch XL lock is made of a high impact stainless steel lock body. This lock will not corrode, weather, or fade. We back the XL with a 1 or 2 Year Replacement Warranty. Backed by our 30 day satisfactions guarantee that you will like it or your money back!

Heavy Duty Mortise with Auto-Locking Deadbolt!

Easy to use, menu-based administration
