

SASM Shock Absorbing Strike Mount

The SASM is a field installed kit intended for use with the M32, M62, and M82 Magnalocks in outdoor gate installations. The Stainless Steel compression springs absorb impact of swinging or slamming of the strike against the face of the Magnalock and increases the life of the lock.

Features

- 120 lb absorbing force in closing direction
- 50 lb recoil absorbing force
- Corrosion resistant stainless steel components
- 5/8" closing travel, 3/8" recoil travel
- Fits all M32, M62, and M82 Strikes
- Designed for use with brackets 1/4" - 3/8"
