

RB30 - Relay Module

Specifications:

- 12VDC or 24VDC operation.
- Current draw: 95mA.
- 30 amp/120VAC or 28VDC DPDT contacts.
- UL recognized relay.

Board Dimensions: 2.75"H x 2"W x .75"H

Operation:

1. Mount the RB30 in desired location/enclosure.
2. Set switch to select 12VDC or 24VDC operation.
Closed for 12VDC, Open for 24VDC.
3. Upon proper application voltage (12 or 24) to terminals marked [POS (+) and NEG (-)] relay will actuate, and red LED will be lit.
4. Use output contacts to make and break load circuits.
