

BioBox Safe

STORE MEDICATION AND GUNS
2 WAYS TO OPEN: FINGER & KEY
PORTABLE AND LIGHT WEIGHT

The BioBox provides you with sleek, safe and convenient storage for handguns, jewelry, medication, cash, and personal documents. Its compact size also allows you to store your valuables in tight spaces or even while traveling. Just swipe your finger to unlock the BioBox Safe in less than a second.

- Quick and easy access without having to handle keys
- Prevent lost, stolen, or duplicated keys
- Compact and light weight for easy mobility or concealment
- Easily add and remove individual users directly on the safe

The biometric fingerprint reader uses the latest technology to recognize hard to read fingerprints and scan through dirt and oil. This safe stores up to 30 fingerprints for multiple user access and easily delete users from the safe, when needed.

The BioBox is powered by 4 AA batteries that will last for over 1500 openings. The Fingerprint data will not be lost when batteries die or are replaced. It comes with 2 high security keys just in case your batteries fail.

The BioBox provides a safe and secure way to store valuables or fast and easy access to your firearm.
